INTRODUCTION

GULF STATE HANGERS and Support Manufacturers, Inc.

"SPECIALISTS IN CUSTOM MADE STAINLESS STEEL HANGERS"

We have been manufacturing pipe hangers and custom designed supports since 1977. We do custom fabrication from most popular grades of construction materials. Over the years we have had the opportunity to assist many of our customers in solving troublesome problems by fabricating custom hangers to fit their specific needs. We can customize standard products to fit your needs.

The employees and management of Gulf State *Hangers* would like to take this opportunity to thank our customers for their inquiries and purchase orders over the past years. We take pride and pleasure in dedicating this catalog to our customers and future customers.

This is not just another catalog for looking up figure numbers to place an order for materials that no one remembered to order. We have attempted to make this catalog a presentation of examples of the types of work that <u>Gulf State Hangers</u> turns out. This catalog should make it easier for engineers and designers to select supports that meet their needs without being limited to selections available in other catalogs.

<u>Gulf State Hangers</u> takes pride in the fact that we go beyond the normal procedure of "business as usual". We try to take an interest in seeing that our customers are satisfied in the quality of the product as well as the service they receive.

With that in mind <u>Gulf State Hangers</u> has instituted many changes in our sales, production, and management programs. We feel these changes will enable us to keep our prices intact and better serve our customers without reducing the quality of our products. Management reviews all inquiries from new customers. All orders from customers that do not have Management credit approval will be C.O.D.

Our reputation rests with satisfied customers. We appreciate the opportunity to serve you. For additional information about the company, or any of our products, or if you have a problem connected with pipe hangers or steel fabrication, call us at (251) 653-6228, FAX (251)653-5356, or write <u>Gulf State Hangers</u>, P.O. Box 407, Theodore, AI. 36590.

The Management

GENERAL NOTES

CATALOG PAGE NUMBERING: We have a unique system of numbering the pages in this catalog. *The item Figure Number is the page number*. An index is not required to find an item in this catalog if you know the *GSH* Figure Number. We believe this page numbering system will be easier and faster than looking up the page number in an index.

INDICES: Two indexes are included in this catalog. Both are designed to be a cross reference between *Gulf State Hangers* figure numbers and Grinnell figure numbers. The index in the front of the catalog is in numerical order by Gulf State Hangers figure numbers. The index in the back of the catalog is in numerical order by Grinnell figure numbers.

SPECIFICATIONS: All catalog products meet the requirements of MSS SP-58. Custom fabricated products will meet the specifications provided by the customer. Standard specifications are subject to change without notice.

UNITS OF MEASURE: In this catalog dimensions are in inches, and loads and weights are in pounds unless otherwise noted. All weights are approximate.

MATERIALS:

Carbon Steel catalog items for general use are made from the following materials.

ITEM	MATERIAL SPECIFICATION
Structural Shapes and Flat Bar	ASTM A-36
Plate, Rod, and Pins	ASTM A-36
Pipe	ASTM A-53
Bolts	ASTM A-307 Grade A
Nuts	ASTM A-563 Grade A
Forgings	ASTM A-668 Grade C,
	D or F

Alloy or stainless steel Catalog Items are made from the following materials unless otherwise specified in the order.

ITEM	CHROME-MOLY	STAINLESS STEEL
Plate	ASTM A-387 Grade 11 or 22	A-240 Type 304
Pipe	ASTM A-335 Grade P11/P22	A-312 Type 304
Rod 8z Pins	ASTM A-322 Grade 4140	A-276 Type 304
Bolts	ASTM A-193 Grade B7 or B16	18-8 Stainless
Nuts	ASTM-194 Grade 2H	18-8 Stainless

CUSTOM WORK

ORDERING CUSTOM ITEMS - *Gulf* State *Hangers'* quoted prices for custom made items are based on the stated quantities and the existing material and labor cost. Changes in order quantities may change the quoted pricing. This makes it very important for order quantities to be correct before asking for prices or entering an order.

NON-RETURNABLE WORK - All custom work including standard hangers made from non-standard materials specified by the customer and any item made to a customer's drawing or dimensions is the property of the customer as soon as *Gulf* State *Hangers* orders any special material or starts work on any material in inventory. Such material and labor is non-returnable for credit and payment is due *Gulf* State *Hangers* when invoiced. See CONDITIONS AND TERMS OF SALE printed inside the back cover of this catalog for more details.

SPECIAL SHAPES - *Gulf* State *Hangers* reserves the right to fabricate non-standard steel or alloy shapes from plate of the specified material. This would include angles, channels, tees, H sections, rectangular or square tube, etc. Generally this is due to the required material not being readily available in the required quantity.

EYE RODS - Formed eyes on rod ends will not look exactly like catalog drawings. Generally some larger shop formed eyes will be tear drop shaped and be a little larger than the minimum inside diameter stated in some catalogs. The following eye opening widths work well and will accommodate the largest pipe hanger bolt size:

ROD SIZE, INCHES	EYE WIDTH, INCHES
3/8 & 1/2	3/4
5/8	1
3/4	1-1/8
7/8	1-1/2
1	1-7/8
1-1/4	2-1/8
1-1/2	3+/-

TURNBUCKLES - One end of every turnbuckle has left-hand threads. This is a must for it to work. So don't forget to order a Fig. 19CR change rod or a Fig. 22L left-hand eye rod for every turnbuckle you order.

ORDERING INFORMATION

<u>Gulf State Hangers</u> will be pleased to process your inquiry or order regardless of the manufacturers figure numbers you use.

The Hanger item Name, Figure Number, and Size is all of the information needed to order hangers from most vendors. With <u>Gulf State Hangers</u> you have choices other than plain black for hangers. Most of the hangers in the <u>GSH</u> Catalog give a choice of stainless steel or carbon steel. In addition to the Hanger Name, Figure Number, and Pipe or Rod Size you must specify the material. If your choice is stainless steel and more corrosion resistance than type 304 or 18-8 stainless is required for your facility, then you must specify the grade or type material desired. The <u>GSH</u> stainless steel inventory is primarily type 304. Our inventory of type 316 items is limited. Most items are available in type 316 on special order. If your choice is carbon steel you can have many items Plain Black, Zinc Plated, Hot-Dip Galvanized, or Painted to your specification. Hot-Dip Galvanized is more economical than most multi-coat paint systems. Chances are the HDG items you need will be in stock at <u>Gulf State Hangers</u>.

<u>PLASTIC COATED</u> <u>AND</u> COPPER COATED HANGERS

A few popular Plastic Coated hangers are included in this catalog.

All hanger items shown with plastic or copper coatings in other manufacturers catalogs are available from <u>Gulf</u> <u>State Hangers</u> with the coating. The demand for these items is so small that we did not use catalog space to include all of them.

ENGINEERED HANGERS

SWAY BRACES, SWAY STRUTS, CONSTANT SUPPORTS, VIBRATION CONTROL UNITS, ENGINEERED SPRING HANGERS, and HYDRAULIC SHOCK AND SWAY STRUTS are referred to as Engineered Hangers. <u>Gulf State Hangers</u> does welcome inquires on these items. For information on selecting and ordering these items we refer you to the various manufacturers catalogs. Give us a call, or send us a Fax when you have your selections made.

We welcome request for <u>Gulf State Hangers / Grinnell</u> Figure Number Conversion Listings.

ABBREVIATIONS USED IN THIS CATALOG

A, B, C,	Indicates 1st, 2nd, 3rd in a series
А	ADJUSTER, ADJUSTABLE, ALLOY, OR ANCHOR
ATR	ALL THREAD ROD
BLK	BLACK, PLAIN, OR NO FINISH
BP	BASEPLATE
BS	BASE STRAP
BOS/ TOS	BOTTOM OF STEEL/TOP OF STEEL
C	
	CENTER, COATED OR CORROSION RESISTANT
CI	CAST IRON
CP	CLEVIS PIN
CR	CHANGE ROD - LH/RH
CS	CARBON STEEL
СТ	COPPER COATED
DI	DUCTILE IRON
Е	END, EXCEPTION OR ELBOW EG ELECTRO-GALVANIZED
FAB	FABRICATE
FB	FLAT BAR
FOT/FOB	FLAT ON TOP/FLAT ON BOTTOM
FP	FIRE PROTECTION
FS	FORGED STEEL
FRP	FIBERGLASS REINFORCED PIPE
G	GUSSET OR GUIDE
Н	HEAVY, HORIZONTAL OR HANGER
HDG	HOT-DIP GALVANIZED
L	LEFT, LIGHT, OR LONG
LH	LEFT HAND
M	MEDIUM OR MALE M/F MALE/FEMALE
MI	MALLEABLE IRON
MSS	MANUFACTURERS STANDARDIZATION SOCIETY
NFPA	NATIONAL FIRE PREVENTION ASSOCIATION
P	
	PIN OR PIPE
PLT	PLATED (generally zinc)
R	ROD, ROUND, OR REDUCING
RH	RIGID HANGER
RR	ROUND ROD (no threads)
S	SHORT, SPECIAL, OR STAMPED
S.D.	SPECIAL DESIGN
SH	SPRING HANGER
SS	STAINLESS STEEL
Т	TUBE OR TUBING
TBS	THREADED BASE STANCHION
TB	TURTLE BACK
TBE/TOE	THREADED BOTH ENDSITHREADED ONE END
TOS	TOP OF STEEL
U	U-BOLT
V	VERTICAL
W	WELDED OR WITH
WBS	WELDED BASE STANCHION
W/O	WITHOUT
Х	CROSSED, LINKED OR EXTRA
XH	EXTRA HEAVY
